## PICKPOCKETS GET HEARING

Three Baltimore Crooks Held for Court in default of Heavy Bail. Said to Have Criminal Records.

The three pickpockets caught in Gettysburg Memorial Day were given a hearing before Squire Hill this morning and held for August term of Court in default of bail. The man giving his name as Horn had his bail placed at \$2000 and the others at \$1500 each.

The names given by the prisoner were Joseph Horn, Harry Bradford and Eli Caplin. Detective Kahler, of Baltimore, stated after the hearing that the real names of the men are Joseph Moran, Harry Plymouth and Eli Caplin. He also stated that Plymouth has just finished a six months' term in a Baltimore jail, that Moran had served a penitentiary term and that Caplin had been under arrest eight or nine times. Detectives Kahler and Kratz, of Baltimore, arrested on Memorial Day in front of Holliday street theatre, that city, three others supposed to be pals of the three men now in the Adams County jail.

At this morning's hearing J. A. Johnston, of Wilmington, Delaware, said that three men, Plymouth, being one of them, snatched his about in a trolley car in town on Tuesday and that he suddenly realized his purse was gone and gave chase to Plymouth who dropped the article as he fled, Mr. Johnston recovering it.

Clifford Wierman told of joining in the chase and capturing Plymouth near the gas house after which he turned him over to Chief Shealer.

Frank Smith, of Baltimore, said that just as he was leaving the train at Gettysburg Memorial Day, he felt Caplin's hand in his pocket and caught hold of it and that as he held Caplin the latter gave the purse which contained a dollar and a railroad ticket to Moran. On cross examination, however, Smith said he did not see Caplin have the pocket book when he took his hand from the pocket and that he did not see Caplin give the purse to Moran.

Jacob Eierman, of Baltimore, said that as he was at the Western Maryland station in Gettysburg about five o'clock Memorial Day he felt some one tugging at his coat and as he turned around saw Moran. He said no one else was near enough to have picked his pocket and that he realized immediately what had happened and was further confirmed in his belief when he saw Moran become so nervous that he looked as though he might collapse. He testified that Moran, Caplin and Plymouth had all been together on the way here together with a fourth party. Mr. Eierman lost his pocket book containing about \$4.50 and two tickets to Baltimore.

Detective Kahler was called to give testimony regarding the prisoners' records but it was not allowed. Several railroad detectives were also present at the hearing. District Attorney S. S. Neely conducted the case for the Commonwealth. J. D. McPherson Esq., represented Moran, and Edward A. Weaver, Esq., Caplin and Plymouth.

## IRON SPRINGS

Iron Springs, June 2—Samuel Walter, of Fairfield Station, is having his farm house torn away which has stood for many years and is building a new house. Lemuel Mickle, of Orrtanna, has the contract.

Mrs. Joseph Gallagher, of Goshen City, Indiana, is spending some time with Jacob Gallagher and family.

Wilson Hummelbaugh and daughter, Gifford, visited Mr. and Mrs. Harry Black near Gettysburg recently.

Mrs. Frank Watson and little son were at Gettysburg on Wednesday.

Jacob Gallagher and two daughters, Mary and Lucy, and Mrs. Joseph Gallagher attended Memorial Day services at Gettysburg, also Howard Reed and Edward Richardson.

This end of the county had a fine rain Wednesday evening to refresh vegetation and everything has put on its robe of splendor.

## CENT A DOZEN

Hagerstown gathered 50,000 tin cans on "clean-up" day, under an impetus of a promise of a cent a dozen offered by C. W. Boyer, of that city. The largest collector was William Smith, who picked up 1,000 in the alleys and hauled them to Mr. Boyer in a spring wagon.

## AUTO PLUNGES OVER BRIDGE

Charles Sefton, formerly of Fairfield, Killed in Plunge of Automobile over Mulberry Street Bridge at Harrisburg.

Charles A. Sefton, formerly of Fairfield, and well known in Gettysburg where he has a number of relatives, was instantly killed Thursday evening in the fifty foot plunge of an automobile from the Mulberry street bridge Harrisburg. Two other occupants of the car were instantly killed and the fourth died at 3.15 this morning from injuries. William R. Harrar, a leather merchant, and Mrs. Robert W. Dunlop, both of Harrisburg, were the others instantly killed and Miss Laura M. Neilson, also of Harrisburg, died from injuries.

The fatal accident was due to an attempt on the part of Mr. Harrar to turn his machine just as he was bringing his own car to the top of an approach to the main bridge. The place where the drop was made is one of the highest on the whole bridge and the machine dropped on solid concrete to the north of the big viaduct.

The occupants of the car were out for a short ride about the city. But a few minutes before the accident all four had finished dinner at a restaurant. The car was driven out Market street through the subway and then turned down Cameron street to the approach.

Owing to the grade of the approach the machine reached the top going at a very moderate speed, according to numerous witnesses. Just as the driver was about to turn the car into the main roadway of the bridge, a car driven by an unknown man whizzed along at a pace that has long made people on the bridge shudder in fear of possible accidents.

Harrar turned his car about, pointing it towards the eastern approach of the viaduct. A collision was prevented, but the front wheel of the machine hit the concrete curbing and wrenched the steering gear about so that the machine jumped onto the sidewalk and plunged into a concrete post in the middle of the space between the two ornamental light standards that mark the very centre of the bridge.

The post snapped, the rails shook loose from their fastenings and without a sound from the horror stricken people in the car, the machine took its plunge.

There was a sound of rattling metal from the space beneath, but no human sounds, came up to the sidewalks where a dozen or more people who saw the accident, waited breathlessly in the hope of hearing some voice that would indicate life.

No sound was heard, however. All four were taken to the Harrisburg Hospital in the hope that something might be done for the unfortunate people but examination showed the three to have been killed instantly while Miss Neilson's injuries were at once pronounced fatal.

Mr. Sefton was 49 years old and was a son of Mr. and Mrs. Charles Sefton formerly of Fairfield. Both the parents are dead. The other living members of the family, all of whom formerly lived at Fairfield, are Miss Nan Sefton, of Gettysburg; Mrs. Lillie Knox, of Knoxville; Mrs. Flora Reading, of Vineland, New Jersey; Miss Belle Sefton, Philadelphia; Mrs. Jessie Dunkle, Harrisburg. His wife also survives. A number of cousins and other relatives live in Gettysburg.

## VISITS FORMER HOME

Dr. A. C. Hummelbaugh, of Los Angeles, California, this week paid a visit to his birthplace in Idaville, which he left at the age of five, thirty four years ago and which he had not seen since that time. ## HANDLED MANY PIECES OF MAIL

Over Two Hundred Thousand Pieces of Mail Handled at Gettysburg Post Office during Month of May. Employees Tired.

The heavy task of counting the mail going through the Gettysburg post office during the month of May has been completed and shows about 130,000 pieces of incoming matter and 108,000 of outgoing mail. May is one of the duller months for the local office and only one day showed anything like a heavy mail. That was on May 31 when between nine and ten thousand pieces were handled, a large proportion of which was made up of souvenir cards.

The work proved very tiresome to the employees of the local office and all are glad that the month is over. Many of the figures are quite interesting.

During the month 64,650 pieces of first class matter were received of which 38,000 were delivered by town carriers, the remainder going out through the office or by rural carriers.

As against this incoming first class matter there were 76,600 pieces of outgoing mail of like class. Newspapers coming in totaled 30,240 and outgoing 23,800 but it must be remembered that in the latter class was included bundles of many papers which counted as only one piece. Of the incoming newspapers about one third were carried by city carriers.

Of the 2250 magazines received at the Gettysburg office all but about 250 were delivered by town carriers, this being largely responsible for their heavy packs of mail. The number of outgoing magazines was 107. Regular publications sent with stamps were 780 incoming and 70 outgoing.

Circulars entering the post office during May numbered 12,600 while 3600 were dispatched; other incoming third class matter 7300, outgoing 2300. Incoming fourth class 1900; outgoing 2363.

Congressional franked matter: incoming letters 99, other matter 128; outgoing 14 letters, 28 pieces of other matter. Other franked matter including departmental, incoming letters 690, other matter 683; outgoing letters 643, other matter 518.

There were received 116 foreign letters and 73 pieces of other foreign matter. Dispatched foreign matter, 156 letters, 64 pieces of other matter. There were received 249 registered letters and 240 dispatched.

In addition to counting all the mail every person was timed. Incoming mail was handled between five and six pieces to the minute and outgoing between six and seven pieces a minute.

## CARNEGIE'S SHARE IN STEEL MERGER

Received \$492,006,160 For His Interests.

## GARY SCOUTS WORLD TRUST

Chairman of United States Steel Corporation Declares He Knows of No Proposed Combination to Control Steel Output of All Countries.

Washington, June 2. — Elbert H. Gary, chairman of the United States Steel corporation directors, told the house investigating committee what the Andrew Carnegie interests got for their properties at the time of the great merger.

"The syndicate," said Judge Gary, "delivered to the Carnegie interests \$203,450,000 in bonds, \$98,277,120 preferred stock and \$90,279,040 common stock."

This makes \$492,006,160 face value of steel corporation securities for which Andrew Carnegie and his fellow stockholders sold out.

Judge Gary flatly denied knowledge of a proposal to form a combination to control the steel trade of the world.

The disclaimer as to the world-wide combination was called out by a statement by Mr. Stanley, chairman of the committee, that Mr. Gary was accredited with being the directing genius of such a "world trust." Mr. Stanley intimated that these reports had much to do with the inquiry started by the house of representatives.

"There isn't any doubt," Mr. Gary told the committee, "that the United States Steel corporation, as the owner of most of the stocks of the subsidiary companies, ultimately controls those subsidiary companies, including their management and conduct."

Asked whether the Carnegie Steel company now competes with other subsidiary companies in the steel corporation, Mr. Gary said: "I should say it does, putting my interpretation on the word. I came to be frank and to give you the exact facts—that you may put your own construction on them."

"The subsidiary companies have their own directors and officers and have the right to act independently, but as the steel corporation owns the securities, if the conduct of a subsidiary company was antagonistic in any way, it would only be a question of time when the administration of that subsidiary company would be changed."

"You mean the parent company would control the policies of any subsidiary company?" was asked. "It might not for the moment or the month, but when the time to elect officers arrived, it would," was the reply. "It would exercise the recall, as it were?" asked Representative Brantley, of Georgia. "Yes, you might put it that way," Mr. Gary answered.

"Are the profits of one subsidiary company measured as the profits of all?" Mr. Stanley asked. "That is, does the parent company distribute the dividends of all?" "The earnings of the subsidiary companies," Mr. Gary answered, "whenever dividends are declared, go into the treasury of the United States Steel corporation. That corporation being the owner of the dividends, of course distributes them as it sees fit. The subsidiary companies have no interest in the dividends after they are declared."

Mr. Gary said he was chairman of the board of directors, chairman of the finance committee and chief executive officer of the steel corporation and a member of the board of directors in the subsidiary companies, such as the American Bridge company, the American Steel and Wire company, Carnegie Steel company, American Sheet and Tin Plate company.

Mr. Gary said the Carnegie Steel company was a competing company before the organization of the steel corporation. He added that the Carnegie company now held \$169,000,000 of stocks and \$169,000,000 of bonds of the United States Steel corporation.

"Are you a director of the Tennessee Coal and Iron company?" asked the chairman. "Yes, sir."

"Was it an independent concern prior to its absorption by the steel corporation?" "It was independent of all other companies," Mr. Gary replied, "but it was quite dependent so far as getting a livelihood was concerned."

## 'SAND STATUES' ON BEACH DEMOLISHED

Strange Facts About "Art" Uncovered in Atlantic City.

Atlantic City, June 2.—The "sand statues on the beach" here are gone. Workmen under the direction of the beach superintendent have destroyed them. This was a part of the annual cleaning order of Mayor Stoy, at the opening of the bathing season.

The "white wings" exposed cement blocks and several tons of steel and iron frame work when they tore away the sand covering of the "art," along with other "details." These were not known by the public, who have marveled at the clear-cut lines of the "sand" figures and showered coins on the broad white sheets bearing the inscription: "I do this to pay my way through college."

Carrying out of the mayor's order also brought some strenuous objection from men, who will not see forty again. Then the public learned that the youths, who were thought to be "sand artists," were hired at so much a day.

Still another discovery was that one "artist" was a magnate. Four "galeries" were found to be the result of his enterprise. He was seldom seen a work except in the early mornings. His bank account is said to be sufficient to keep him during the winter months on the fruits of his summer toil.

The "artists" hereafter must keep their models down to a foot in height and must employ sand exclusively. The penalty for violation will cause their removal from the beach.

## CONSULATE INVADED

Eagle Pass, Tex., June 2.—The United States consulate at Ciudad Porfirio Diaz was forcibly entered by a member of the insurgent forces stationed there.

Luther T. Ellsworth, the consul, was insulted and threatened and the consulate was searched for money.

On the display of a six-shooter by Consul Ellsworth the insurgent left and said that Madero would explain matters to the United States.

Colonel R. Pena, in command of the federal forces, was appealed to, but acknowledged his inability to give proper protection.

## STRIKERS' WIVES IN JAIL

Dozen Women and Girls Locked Up For Annoying Non-Union Men.

Irwin, Pa., June 2.—Singing "The Union Forever," twelve wives and daughters of striking miners of Westmoreland City were returned to the county jail at Greensburg. Two of the women took their infants with them.

They persisted in "serenading" the non-union miners by beating on kettles and other kitchen utensils and by ringing bells, although they recently were released from jail on bail after being sentenced for the same offense.

## FIGHTING PLOT TO BEAT PACT

Taft Believes Amendments Are For This Purpose.

## DEMOCRATS ARE HIS ALLIES

"Farmers' Free List" Bill to Be Offered as Amendment in the Senate to Embarrass the Minority.

Washington, June 2.—The crisis in the senate fight on Canadian reciprocity is expected to be reached when the Democratic "farmers' free list" bill is offered as an amendment to the bill carrying the agreement into effect.

That such an amendment will be offered for the purpose of embarrassing the Democratic supporters of reciprocity seems certain. It is toward this critical contingency that President Taft just now is devoting his attention. He is holding daily conferences at the White House in an effort to keep Republican and Democratic senators alike in line for the pact.

President Taft is certain that the reciprocity bill will pass the senate by a comfortable majority if it can be brought to a final vote without amendment.

The president feels that any amendment in the senate will defeat the bill and he believes that to be the purpose of some senators who have proposed amendments. The Root, Lodge and Nelson amendments have brought the president into sharp conflict with these senators, but he has not hesitated to express his views regarding them.

Fully cognizant of the fact that he must depend upon the almost solid vote of the Democrats in the senate to carry the reciprocity bill through, President Taft has been endeavoring to devise a means to help them out of the dilemma that will be presented when they are asked to vote for or against the free list bill as a rider to the reciprocity measure. Some Democratic senators have told the president frankly that they would vote against the free list amendment if they could be assured that the "standpat" Republicans would not stifle in committee the free list bill as it came from the house and thus deprive the southern Democratic senators of the opportunity in open senate properly to record their votes on the measure.

President Taft fully appreciates the position in which the senate Democrats find themselves, but he thinks he has found a solution of the problem. He has suggested that a motion by the Democrats to discharge the finance committee from consideration of the free list bill and to put it upon its passage would serve the purpose of the Democrats in making their attitude a perfectly clear one.

## May Accept Taft Plan.

The plan, as outlined, has been broadly discussed among Democratic senators and it is said that they believe with other friends of reciprocity that it is an acceptable solution of the difficulty.

In all of his talks with senators during the past few days President Taft has endeavored to impress the fact that in negotiating the pact with Canada, the United States offered to put meats, flour, agricultural implements and shoes on the free list. Canada would not make like concessions. The agreement is specific on certain points and cannot be varied.

The rates on flour, meats and shoes could be reduced without violating the pact, it is said, but to do so would open up the problem of the "most favored nation" clause in treaties with other countries. And while the United States would get no concessions from Canada by reducing the rates the application of these rates to other countries, the president holds, might let in Argentine meat and Australian mutton, which he believes would be a real injury to the farmer.

President Taft feels sure of 22 Republican votes for the reciprocity bill in the shape that it passed the house. He also feels sure of 35 or 36 Democratic votes, making a total of 57 to 58 in favor of the bill, to 33 or 34 against it, pairs, of course, reducing these figures to the total vote, but not as to the safe percentage of majority.

## REOPEN LORIMER CASE

Senate Elections Committee to Again Probe Bribery Charge.

Washington, June 2.—By 48 to 20 the senate adopted a resolution to reopen the investigation of charges of bribery in connection with the election of Senator Lorimer, of Illinois. The resolution directs the regular elections committee to make the inquiry.

## Nye Not Guilty of Bribery.

Columbus, O., June 2.—The state lost the first of the legislative bribery cases, when Representative George R. Nye, of Pike county, was acquitted by a jury of soliciting a \$500 bribe from State Supervisor of Public Printing E. A. Crawford on April 18. Dr. Nye faces three other indictments.

## CUSTOMS INQUIRY IS COUNTRY-WIDE

Concerns Sugar Only and Will Go Back Many Years.

Philadelphia, June 2.—Special Assistant United States Attorney General Henry M. Arnold, who is conducting the investigation now being made by the special United States grand jury into alleged customs frauds at this port, gave out the following statement:

"This investigation, which will review a period of many years, is to determine whether frauds have been committed at this port in connection either with payments of duties upon importations of raw sugars, or with collections of drawbacks upon exportations of the refined products of raw sugars. It is but an incident in a country-wide inquiry. It is not aimed at any particular individual, firm or corporation, but is general in its nature."

"The grand jury was empaneled to hear the testimony of witnesses to be called for the purposes of determining the justice of allegations of past sugar frauds at Philadelphia. Similar investigations heretofore had at other ports have, in two instances, happily resulted in proving lack of fraud. Thus it would be manifestly unjust, by hasty public utterance at this time, to impugn the honesty of any Philadelphia importer or the honesty of any one."

In the New York customs investigation 170 government employees were found to have accepted bribes from sugar refining firms for short-weighting cargoes of raw sugar, thereby cheating the government out of thousands of dollars. A similar instance may be found here during the grand jury's investigation, according to government officials familiar with the present proceedings.

What part will you take in the campaign for better farming? Much will be required at your hands. Have you determined to do your part?

## A Great Physician What He Said of Germs that Cause Disease.

M. Pasteur, sometimes called the Greatest Physician often said "I believe that we shall one day rid the world of all diseases that are caused by germs."

Of all the diseases caused by germs, catarrh is one of the most persistent and loathsome. Catarrh can be cured, but only by destroying the germs.

Breathe HYOMEI (pronounce it High-o-mee) and cure catarrh by killing the germs. The HYOMEI method is the only sensible method, because you breathe the highly antiseptic and germ killing air directly over the entire membrane infested with catarrh germs.

HYOMEI will cure catarrh. There may be some complicated cases where it will fail, but the chances are ten to one in its favor, and the sufferer from catarrh takes a risk, because HYOMEI is a guaranteed remedy, and if it doesn't cure People's Drug Store will refund the purchase price.

HYOMEI will also give instant relief and cure in bronchitis, coughs, colds and croup. A complete outfit, including hard rubber pocket inhaler, costs only \$1.00. If you own a HYOMEI inhaler you can get a bottle of HYOMEI for 50 cents.

People's Drug Store is selling Ezo these days because already dozens of footsore and weary people here in Gettysburg have learned that there is nothing in this wide world that will do as much good to the sore, tired, burning, perspiring feet as Ezo.

Rub some Ezo on today and all foot troubles will fade away. It's a refreshing and refined ointment is Ezo, and wonderfully soothing and healing.

And a large jar for only 25 cents, and it's the finest ointment you ever saw for rough, itching or chafing skin. It cures eczema, blackheads and sunburn. Ezo Chemical Co., Rochester, N. Y., Makers

Some of the reasons why Gettysburg should have a Chautauqua.

Because the Chautauqua puts the people in touch with the march of progress and the trend of advanced thought. In no other way can the people get so much pleasure, entertainment and instruction at so small a cost. The best lectures, concerts and entertainments are given at a cost of about eight cents each.

Your stomach's full o' holes, you say? Well, quit your boozin' quick. An' when you git that offal thrist. Just tumble in the creek. You'll eat as much as that there pig if you go out an' plow. An' pitch you field of clover hay Up into that baynow.

You've got sore corns on every toe? Gee crippeus, they must pain! You've pared 'em clear into the bone. An' still they sprout again? Well, here's the cure fur corns, my friend— Go barefoot with the chickens. They'll grab 'em off your corns will go To beat the very dickens! C. M. BARNITZ.

Thanks to recent alertness and activity on the part of the postal authorities, a whole lot of grafters who have been using the mails to misrepresent and defraud have been run to earth and in many cases have not only had to pay heavy fines, but many of them are now doing time in federal prisons. Let the good work go on, for there are still others who should be chased into the open.

From most points of view rats are an all around nuisance, but when telephone linemen lay wires in underground conduits they come in handy. A light cord is fastened around a rat's neck, and it is released at the mouth of the conduit. Instinctively it runs through to the other end. Here it is caught and the end of the string is secured. This is used to pull a wire through, and this in turn to pull through the cable containing many wires.
